

29 July 2019

Submission of Scoping Report

Soon Mining Limited (“SMG”) is pleased to announce that the company has completed the first phase of ESIA report and the scoping report. It is written by EPA consultant, Dr. Alfred Mahama and has submitted to EPA (Environmental Protection Agency) on July 26th, 2019. ESIA report can be divided into two part, the Scoping Report and Impact Assessment Report. After the submission, the company is now writing Impact Assessment Report and arranging the public hearing. at the conclusion of the public hearing, it will be submitted to EPA for review to get the final approval.

The company is optimistic with the current EPA progress and expects to obtain approval by end of this calendar year, which will allow the company to commence alluvial gold mining of the concession immediately. In order to maximize the efficiency and the profit of the production after obtaining the EPA approval, the company is now conducting on-site exploration in the concession with geological analysis experts, environmental protection consultant, drilling engineers and other professionals to get sufficient data for analyzing to facilitate the mining process in the future.
