

15 May 2018

### **Signing of Diesel Sale and Purchase Contract**

Soon Mining Limited (ASX:SMG, or Company) is pleased to announce we had signed a diesel sale and purchase contract with a Singapore registered oil company on the 11th of May 2018. We are expecting to commence generating revenue and cash flow shortly as a result of this signed contract.

By signing this contract, it symbolizes a long-term relationship between both parties and the ability to connect with potential buyers and sellers worldwide and create more value and reputation to the Company locally and internationally.

SMG is committed to trading in crude oil as its core oil business. However, due to several factors such as supply and demand for various types of petroleum products, SMG was able to utilize its networks to find appropriate buyers and sellers. The Company had displayed a high level of resourcefulness and ability to adapt to market trends and diverse needs.
